History Early Years (1903–1960) In 1903, motorcars first arrived in Mexico City, totalling 136 cars in that year and rising to 800 by 1906. This encouraged then president Porfirio Díaz, to create both the first Mexican highway code (which would allow cars to move at a maximum speed of 10 km/h or 6 mph on crowded or small streets and 40 km/h or 25 mph elsewhere) and, along with this, a tax ...

Audi cars for sale in Australia - carsales.com.au

A window motor delivers the force necessary to lower and raise a car's automatic windows. Window motors may quit running if they become congested with gunk or just short out. Automatic windows lift and lower because of the power created by your window motor. The window motor lowers and raises the window glass on cars that feature power windows.
