I have a 2005 Subaru Legacy with 112,000 miles and recently my check engine light came on. I took it to my local mechanic and said it was the 0420 code. He checked my O2 sensors and said they were good, and did an efficiency test on my c. converter and said everything was within the normal parameters.

The GReddy e-manage Ultimate is as close to a stand-alone management system as you can get while maintaining the best features of a "piggy-back" engine management; an economical price, the usage of existing sensors, the ability to easily alter factory settings and not having to tune from scratch. But unlike the original e-manage, the Ultimate is more refined, requiring specific application ...
