HOW TO RESET: Nissan 350Z Service Engine Soon Warning Light

There are several ways to reset the check engine/service engine light on a Nissan. The best way is to have the code (s) read using a code reader, and to fix the problem. Since so many people just reset the light to try to hide a problem so they can sell a vehicle, I will not go into the details of the other two methods I am aware of. 2.1K views

How to reset the 'service engine soon' light in a Nissan ...

There are a number of ways to reset a check engine light, but some methods may be better than others. In some cases, it may be possible to turn the light off by using a diagnostic scanner, which attaches to the car and provides information on what has caused the light to come on. Disconnecting the battery may also temporarily turn the light off.

How can I Reset my Check Engine Light? (with pictures)

Once you pump your gas in this manner, your light will begin to blink. Count each blink and you'll get the service code #, then check what the internet says is the cause. You can reset the service light yourself and it turns off. If the light comes back on right away then there's an issue, if not maybe just a fluke.

If no other codes are present, the check engine light will reset within two to three days of normal driving. If the check engine or service engine soon lights stay on, read the fault codes by connecting an OBD2 scanner into the diagnostic port located under the dashboard. Always research the code and possible causes.

Troubleshooting Mitsubishi Check Engine Light | YOUCANIC

If the check engine light still won't go off, there's a chance that the engine control module itself is malfunctioning. Bring the truck to a dealership for a diagnosis. Ask the dealer to reprogram the power train control module to reset your settings. If the re-program does not work, confirm if it is due to a loose gas cap.
