Slark Guide

Slark should try to play aggressively once he reaches level six, so he can take full advantage of the agility transfer from Essence Shift. Use Slark's high mobility to pick off supports before fights break out, allowing his team to start with an advantage. Slark can stack 2 or even up to 3 camps at a time using his high mobility and Pounce.

Dota 2 Hero Guide – Slark. Slark is notorious for being one of the most difficult heroes to kill in all of Dota 2. He is slippery to the core, living up to his name as the Nightcrawler—being a hero that constantly evades capture and death itself. For the uninitiated and unprepared, Slark will seem like a totally broken character, able to strike without warning at any given moment—and get away from danger in the blink of an eye.

Introduction Welcome to the genuine Slark guide, where you will (hopefully) learn what to do when you pick this very special hero, who is often considered to be the "squishiest" hero in the agility roster. Having very little health and pretty mediocre (or even bad) statgain, I can see how a lot of people consider Slark to be a weak hero.

Slark's play-style revolves around his mobility. Early on you want to be roaming around the map farming aggressively, pushing lanes, and looking for pick offs with your team. He's fragile until he's farmed up so if any early team fights break out you'll want to let someone else front line and clean up once all the nukes are on cool-down.
