The history of medicine shows how societies have changed in their approach to illness and disease from ancient times to the present. Early medical traditions include those of Babylon, China, Egypt and India. Sushruta, from India, introduced the concepts of medical diagnosis and prognosis. The Hippocratic Oath was written in ancient Greece in the 5th century BCE, and is a direct inspiration for ...

History of medicine - Wikipedia

Other studies have demonstrated that a reduction in blood pressure (BP) may result in improved renal function. Therefore, earlier detection of hypertensive nephrosclerosis (using means to detect microalbuminuria) and aggressive therapeutic interventions (particularly with angiotensin-converting enzyme inhibitor drugs [ACEIs]) may prevent progression to end-stage renal disease.
