### mingw-w64-install.exe free download - SourceForge

The 192.168.0.1 router IP address is a private address, and it's used as the default router IP address for certain routers, including some models from Cisco, D-Link, LevelOne, Linksys, and many others.

### 192.168.0.1 Default Router IP Address and Routers Using It

Why 192.168.0.1? If you have some experience with routers and their management — perhaps using a professional app for wireless site survey and network analysis such as NetSpot — then you might know that most routers use 192.168.0.1 as their default IP address.
